

The Continuing Adventures of

VR MAN™

A HEAP of TROUBLE

Fighting Protective Wear Crimes...
ONE PLANT AT A TIME!

Vinyl aprons are cheap, but they don't last long. They're piling up so fast it's costing us space and money! It's gotta be the Evil Dr. Vinyl up to his dirty tricks again!

Vinyl is so cheap, they'll have to keep buying!

OH Thank You VR Man! This new VR apparel costs us less because it lasts longer, stays cleaner and saves space!

Thank PolyCo and their safer, innovative solutions for Personal Protection. They make my job easier!

I'll haul you and your pile of vinyl trash right out of here!!!
VR Protective Wear for All!

UUGHHT!!!

Another plant free of cheap vinyl and replaced with environmental friendly VR!
