For Immediate Release

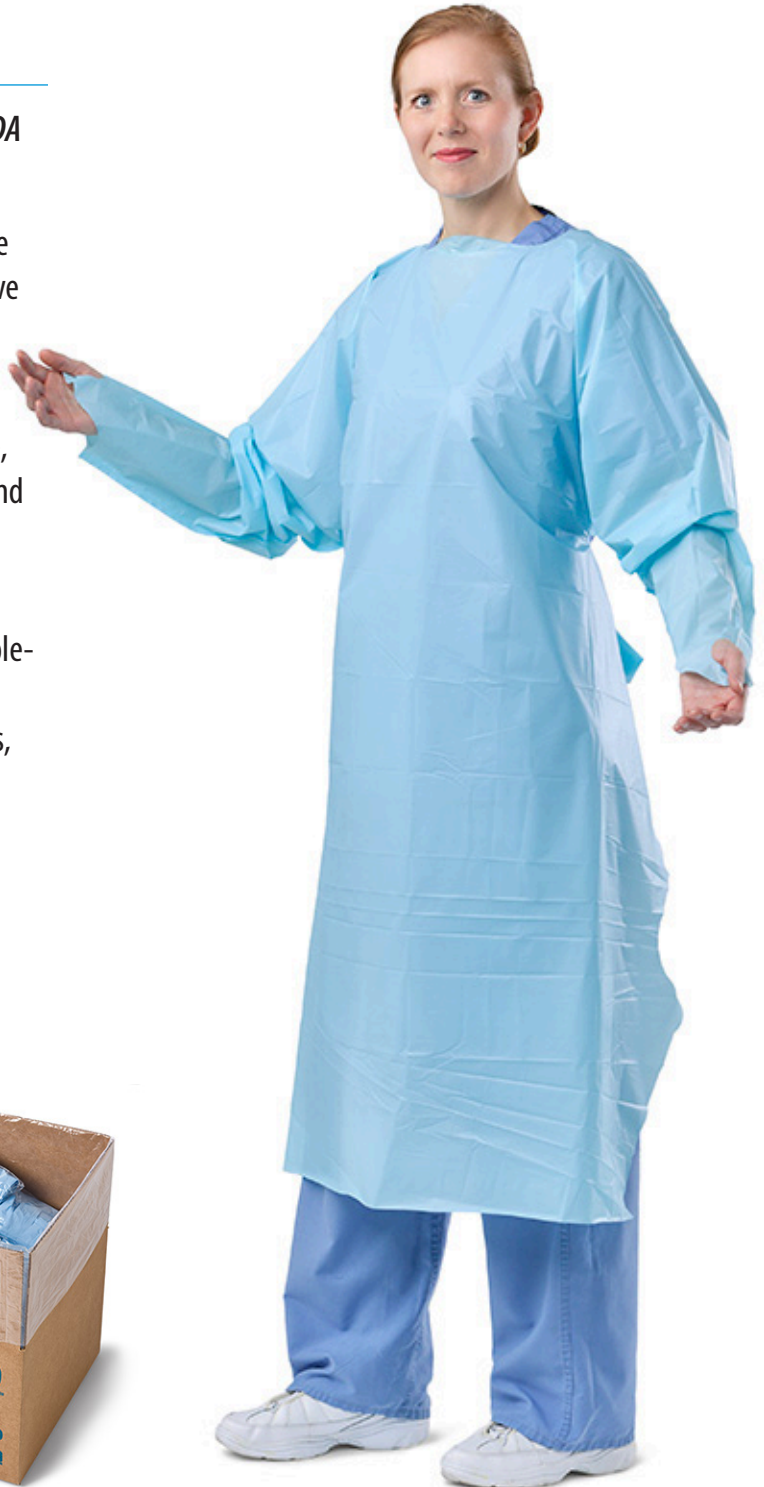

New Personal Protective AAMI Level 3 Gown Cleared by FDA

PolyConversions, Inc., USA manufacturers of VR® and PolyWear® Personal Protective Wear, is pleased to announce the introduction of their new “PolyWear® Personal Protective Level 3 Gown”.

Recently cleared by FDA under their 510(k) #K230384 standards, PolyCo’s AAMI Level 3 is a single-use, non-sterile, open-back gown designed to protect healthcare patients and healthcare personnel from the transfer of microorganisms, body fluids and particulate material.

PolyCo is a leading American pioneering producer of multiple-use and disposable protective barrier products including gowns, aprons, sleeves, shoe covers, thigh-high boot covers, and sterile processing sleeve gloves.
